Claims 1 -13 (canceled).

Claim 14 (currently amended): A mountable device for a golf car comprising:
a frame for placement in a bag bay of the golf car, the frame having a frame section contacting a bottom of the bag bay;
at least one attachment device for connecting the frame to the golf car;
a first ~~hitching device~~ hitch connected to the frame, the first ~~hitching device~~ hitch at least partially extending downwardly from the frame section; and
a second ~~hitching device~~ hitch connected to the frame, the second ~~hitching device~~ hitch at least partially extending downwardly from the frame section.

Claim 15 (currently amended): The mountable device as recited in claim 14 wherein the first and second ~~hitching devices~~ hitches are movable with respect to the frame.

Claim 16 (currently amended): The mountable device as recited in claim 15 further comprising a first driven actuator to move the first ~~hitching device~~ hitch and a second driven actuator to move the second ~~hitching device~~ hitch.

Claim 17 (currently amended): The mountable device as recited in claim 14 wherein the first ~~hitching device~~ hitch includes one of a mount tube and a mount bracket.

Claim 18 (currently amended): The mountable device as recited in claim 17 wherein first ~~hitching device~~ hitch includes the mount bracket, the mount bracket including a claw.

Claim 19 (currently amended): The mountable device as recited in claim 14 further comprising a detachable golf club carrier attachable to either one of the first and second ~~hitching devices~~ hitches, the detachable golf club carrier having at least one wheel for contacting ground,

the first ~~hitching device~~ hitch capable of supporting the detachable golf club carrier when the wheel is off the ground.

Claim 20 (currently amended): The mountable device as recited in claim 19 further comprising a second detachable golf club carrier attachable to an other one of the first and second ~~hitching devices~~ hitches.

Claim 21 (currently amended): The mountable device as recited in claim 19 wherein the detachable golf club carrier is rotatable with respect to the frame when in contact with the first ~~hitching device~~ hitch so as to lift the at least one wheel with respect to the ground.

Claim 22 (previously presented): The mountable device as recited in claim 19 wherein the detachable golf club carrier includes a golf bag held by a holding device.

Claim 23 (currently amended): The mountable device as recited in claim 14 wherein the first and second ~~hitching devices~~ hitches at least partially extend downwardly over a bumper of the golf car.

Claim 24 (currently amended): The mountable device as recited in claim 14 wherein the first and second ~~hitching devices~~ hitches are located side-by-side at the rear of the golf car.

Claim 25 (previously presented): The mountable device as recited in claim 14 wherein the attachment device contacts a bag holder frame of the bag bay.

Claim 26 (currently amended): A mountable device for a golf car comprising:
a frame for placement in a bag bay of the golf car, a frame section contacting a bottom of the bag bay;
a first ~~hitching device~~ hitch connected to the frame, the first ~~hitching device~~ hitch at least partially extending downwardly from the frame section so as to have a height similar to a bumper of the golf car; and
a second ~~hitching device~~ hitch connected to the frame, the second ~~hitching device~~ hitch at

least partially extending downwardly from the frame section so as to at have a height similar to the bumper.

Claim 27 (currently amended): A mountable device for a golf car comprising:
a frame for placement in the bag bay of the golf car;
a first ~~hitching device~~ hitch connected to the frame;
a second ~~hitching device~~ hitch connected to the frame;
a first detachable device connected to the first ~~hitching device~~ hitch, the first detachable device having at least one first wheel for contacting ground and the first ~~hitching device~~ hitch supporting an entire weight of the first detachable device when the first wheel is off the ground;
and
a second detachable device connected to the second ~~hitching device~~ hitch, the second detachable device having at least one second wheel for contacting the ground and the second ~~hitching device~~ hitch supporting the second detachable device when the second wheel is off the ground.

Claim 28 (previously presented): The mountable device as recited in claim 27 wherein the first detachable device is a golf bag carrier.

Claim 29 (previously presented): The mountable device as recited in claim 28 wherein the golf bag carrier includes a golf bag attached by holding means.

Claim 30 (previously presented): The mountable device as recited in claim 27 further comprising at least one attachment device for connecting the frame to the golf car.

Claim 31 (currently amended): The mountable device as recited in claim 27 wherein the first and second ~~hitching devices~~ hitches are movable with respect to the frame.

Claim 32 (currently amended): The mountable device as recited in claim 27 wherein the first ~~hitching device~~ hitch includes one of a mount tube and a mount bracket.

Claim 33 (currently amended): The mountable device as recited in claim 32 wherein first ~~hitching device~~ hitch includes the mount bracket, the mount bracket including a claw.
